

Dhaka University Library

Dhaka, Bangladesh

Password Policy for Online Resources

Dhaka University Library provides access to a number of password-based online resources such as HINARI, AGORA and OARE. There have been instances recently where publishers have withdrawn access to their resources to all Dhaka University faculty and students. This prevents access by the majority of responsible users to contents needed for their research and learning. In order to protect the passwords from unauthorized access, Dhaka University users must follow the rules below:

1. The username/password is strictly confidential and cannot be shared with others, even temporarily.
2. The users must uphold the terms and conditions of the Licence Agreements signed by the Dhaka University Library;
3. The users must not post the password on any public access website, email list or any open forum;
4. Systematic downloading using robots, spiders or manual means is not permitted. Downloading the entire contents of an electronic journal is illegal;
5. Users are strongly advised not to use the password outside Bangladesh.

I have read the above statements and confirm that I fully understand the terms and agree to abide by the rules set forth in this document.
